

## Trails West Game Jersey Care Instructions

---

### Jersey Cleaning, Repair, & Replacement Fee:

- \$125 for jerseys not returned by the deadline or damaged beyond repair
- \$30 for jerseys that need to be drycleaned or mended

Players will be invoiced the applicable amount as per above after March 31 of the current season.

### HANDLE WITH CARE

Jerseys should NOT be placed in hockey bags as Velcro and skates will damage them. Preferably, players will use garment bags to keep jerseys clean and un-damaged during transportation to and from the arena. After a jersey has been worn, **dry completely before storing in the garment bag.**

Any rips, tears, or other damage to the jerseys must be fixed **BEFORE** they are returned at the end of the season, or they will be charged as per above.

Game jerseys are NOT permitted for use during practices.

Respect the jersey and take care of it throughout the season. Remember that another player will be wearing the same jersey next season, and you will be wearing someone else's. Keep the jersey in the same condition that you would want to wear.

C's and A's are allowed using "single stitch" only. **NO ADHESIVES.** When removing them at the end of the season, be very careful not to tear or stretch the jerseys. All C's and A's **MUST** be removed before jerseys are returned.

### WASHING INSTRUCTIONS

**Note: Please wash each jersey separately or with like colors. Do NOT wash the white jerseys with ANY colored clothing as they will likely turn out to be grey, blue, or pink!**

**Wash INSIDE-OUT  
COLD water  
DO NOT USE BLEACH  
HANG to dry**

Do not give hangers out to the players. Leave them in the garment bag for jersey return. Thank you.
